INDEX TO VOLUME XXXII, 1920.

PAGE

Accident to Submarine *K-13* (British) 159, 164
Aerial and Transoceanic Navigation, Prospective Utilization of Vessel-To-Shore Radio-Compass Bearings in, by G. W. Littlehales 38
Aeronautics, Naval Architecture in 762
Aero Oil, Liberty, by William F. Parish 45
Aircraft Dynamometer Hub, The 775
Aircraft, U. S. Naval 575
Airplanes, General Electric Turbo-Supercharger for 586
Air Pump, Radojet, by M. C. Stuart and Arthur H. Senner 437
Alignment Meter for Turbine Gearing 557
Alloys and Metals, Non-Ferrous, and the Naval Engineer 337
American Bureau of Shipping Approves Thermit Welding for Marine Repairs 178
American Meteorological Society 211
Anderson, E. H. B. The Meeting of the Fleets 221
Association Notes 216, 423, 611, 849
Bakelite Propeller Test 606
Balloon Winch, Steam, Lidgerwood 359
Bearings, Radio-Compass, Vessel-To-Shore, Prospective Utilization of in Aerial and Transoceanic Navigation, by G. W. Littlehales 38
Better Boiler Water, by C. A. Bonvillian, Commander, U. S. N. 488
Blowers, Forced Draft, Operation in Parallel in Naval Service, by M. C. Stuart and Arthur H. Senner 688
Boiler Efficiency, Oil Fuel and 178
Boiler Water, Better, by C. A. Bonvillian, Commander, U. S. N. 488
Bonvillian, C. A., Commander, U. S. N., Better Boiler Water 488
Book Notice 422
Book Reviews 214, 607, 847
British Destroyers, Sale of 845
British Progress, Rapid 825
"Building Up" by Welding 606
Castings, Diesel Engine 330
Charlton, A. M., Lieut. Commander, U. S. N., The Electric Lighting Plant of the U. S. S. *Trenton*, First U. S. Navy Installation 425
Charlton, A. M., Lieut. Commander, U. S. Navy, Electricity in the Old Navy 613
Cleary, F. J., Commander, U. S. N., Electric Steel Furnaces and Electric Steel 242
Cleary, F. J., Commander, U. S. N., Range Finders and Range Finding 1
Coast Guard Cutters, New 818

Combustion, Internal, For Navy Vessels 179
Combustion Motors for Warships 821
Common Entry System 829
Communication Service, United States Naval 147
Condensers, Service Experience With 836
Condenser, Surface, Problems 559
Condenser Tubes, Corrosion of 342
Condenser Tubes, Flow of Water Through 503
Consumer's Viewpoint of Oil As a Fuel 205
Cooling Generators and Motors, Water-Air Radiators for, Investigation of, by H. C. Reist and E. H. Freiburghouse 224
Corrosion of Condenser Tubes 342
Craft, High-Speed During the War 520
Cruiser, Light, Design 841
Current Tendencies in Naval Design 538
Cutters, Coast Guard, New 818
Cylinders, Diesel, Fuel Injection in 181
Dead-Water 572
Definition of Engineering 182
Design, Light Cruiser 841
Design, Naval, Current Tendencies in 538
Design, Naval, Developments in 758
Design, Naval, Is It in the Flux 841
Design of War Vessels as Affected by the World War 744
Destroyer *Tyrian* (British) 176
Destroyers, British, Sale of 845
Detection of a Substituted Test Coupon, Metallography in, by D. J. McAdam, Jr., and Gilbert E. Doan 481
Development of the Internal-Combustion Engine 183
Developments in Naval Design 758
Diesel Cylinders, Fuel Injection in 181
Diesel Engine Castings 330
Diesel Engine, Effect of Piston Design on Temperatures in 545
Diesel Engines, Experimental Work in Connection with 784
Diesel Marine Machinery, General Trend of 528
Doan, Gilbert E., Metallography in the Detection of a Substituted Test Coupon 481
Dynamometer Hub, Aircraft 775
Economical Propelling Machinery 605
Economy of Electric Drive 179
Effect in Relation to Ship Structure Produced by Submarine Weapons 353
Effect of Piston Design on Temperatures in a Diesel Engine 545
Efficiency, Boiler, Oil Fuel and 178
Efficiency, Mechanical, of Oil Engines 844

Eighteen-Inch Gun, Era of the 842
Electric Drive, Economy of 179
Electric Driven Japanese Warships, Plan for 211
Electric Lighting Plant of the U. S. S. *Trenton*, First U. S. Navy Installation, by A. M. Charlton, Lieut. Commander, U. S. N. 425
Electric Propulsion on the *New Mexico*, Two Years of 416
Electric Steel Furnaces and Electric Steel, by F. J. Cleary, Commander, U. S. N. 242
Electricity in the Old Navy, by A. M. Charlton, Lieut. Commander, U. S. Navy 613
Endowment, George Montefiore 845
Engine, Diesel, Castings 330
Engine, Diesel, Effect of Piston Design on Temperatures in 545
Engine, Internal Combustion, Development of 183
Engineer and Noise 553
Engineer, Naval, Non-Ferrous Metals and Alloys and the 337
Engineering, Definition of 182
Engineering, Human Element in 170
Engineering, Marine, Present Trend of 402
Engineering, Naval, Wartime 363
Engineers, Naval 828
Engines, Diesel, Experimental Work in Connection with 784
Engines, Internal Combustion 334, 824
Engines, Marine, "Still" and "Sulzer" 831
Engines, Oil, Mechanical Efficiency of 844
Engines, Supercharging and Superchargers 596
Equipment and Research, Naval 760
Era of the Eighteen-Inch Gun 842
Erosion of Propellers 604
Estimates, Japanese Naval 845
Estimates of Propeller Performance from Self-Propelled Model Tests 533
Ex-German Battleship *Ostfriesland*, by Lieut. Commander Karl F. Smith, U. S. Navy 652
Examination of Lubricating Oils 530
Experience and Practice in Mechanical Reduction Gears in Warships 383
Experimental Work in Connection with Diesel Engines 784
Exposition, National Marine and National Marine Week 212, 418
Facts About German Submarine Construction 164
Fatigue of Metals, Investigation of 180
Fifty-foot Steamers Equipped with Turbine and Reduction Gear, Trials of, by William C. Owen, Lieut. Commander, U. S. N. 311
Finding, Range, and Range Finders, by F. J. Cleary, Commander, U. S. N. 1

First U. S. Naval Installation of Electric Lighting Plant, on U. S. S. *Trenton*, by A. M. Charlton, Lieut. Commander, U. S. N. 425
Fittings and Pipes, Flow of Steam Through, by M. C. Stuart and M. H. Russell 472
Fleets, Meeting of, by E. H. B. Anderson 221
Floating Gears for Naval Machines 177
Flotilla Leaders, Italian 806
Flow of Steam Through Pipes and Fittings, by M. C. Stuart and M. H. Russell 472
Flow of Water Through Condenser Tubes 503
Forced Draft Blowers, Operation of in Parallel, in Naval Service, by M. C. Stuart and Arthur H. Senner 688
Freiburghouse, E. H., Investigation of Water-Air Radiators for Cooling Generators and Motors 224
French Abandon Steam-Driven Submarines 179
Fuel Injection in Diesel Cylinders 181
Fuel, Oil, and Boiler Efficiency 178
Furnaces, Steel, Electric, and Electric Steel, by F. J. Cleary, Commander, U. S. N. 242
Geared Turbines, Lubricating Oil System for 574
Gearing, Reduction, on Steamships 563
Gearing, Turbine, Alignment Meter for 557
Gears, Floating, for Naval Machines 177
Gears, Reduction, Mechanical, in Warships, Experience and Practice in 383
General Electric Turbo-Supercharger for Airplanes 586
General Trend of Diesel Marine Machinery 528
Generators and Motors, Cooling, Water-Air Radiators for, Investigation of, by H. G. Reist and E. H. Freiburghouse 224
George Montefiore Endowment 845
German Submarine Construction, Facts About 164
Gregory, Henderson B., U. S. S. *Idaho;* Description and Official Trials 99
Gregory, Henderson B., U. S. S. *Trinity*, Description and Trials 719
Gun, Eighteen-Inch, Era of the 842
H. M. S. *Hood* (British) 374
Heat, Transference of, Through Metal 548
Heim, S. F., Lieut. Commander U. S. N., A Peculiar Case of Damaged Propeller 326
High-Speed Craft During the War 320
Hood, H. M. S. (British) 374
Horsepower Measurement, Standardization of 328
Human Element in Engineering 170
Idaho, U. S. S., Description and Official Trials, by Henderson B. Gregory 99

Internal Combustion Engine, Development of 183
Internal Combustion Engines 334, 824
Internal Combustion for Navy Vessels 179
Internal-Combustion Turbine 543
Investigation of Fatigue of Metals 180
Investigation of Water-Air Radiators for Cooling Generators and Motors, by H. G. Reist and E. H. Freiburghouse 224
Is Naval Design in the Flux? 841
Italian Flotilla Leaders 806
Japan, Shipbuilding in 540
Japanese Naval Estimates 845
Japanese Warships, Electric-Driven, Plan for 211
K-13, British Submarine, Accident to 159, 164
Kitchen Reversing Rudder 345
Liberty Aero Oil, by William F. Parish 45
Lidgerwood Steam Balloon Winch 359
Light Cruiser Design 841
Lighting Plant, Electric, of the U. S. S. *Trenton*, First U. S. Navy Installation, by A. M. Charlton, Lieut. Commander, U. S. Navy 425
Littlehales, G. W., Prospective Utilization of Vessel-To-Shore Radio-Compass Bearings in Aerial and Transoceanic Navigation 35
Low-Powered Merchant Ships, Propellers for, by S. M. Robinson, Commander, U. S. N. 237
Lubricating Oils, Examination of 530
Lubricating Oil System for Geared Turbines 574
McAdam, D. J., Jr., Metallography in the Detection of a Substituted Test Coupon 481
Machinery, Marine, Diesel, General Trend of 528
Machinery, Propelling, Economical 605
Machines, Naval, Floating Gears for 177
Marine Engineering Catalog and Service, Sterling 213
Marine Engineering, Present Trend of 402
Marine Engines, "Still" and "Sulzer" 831
Marine Machinery, Diesel, General Trend of 528
Marine Requirements 825
Measurement, Horsepower, Standardization of 328
Mechanical Efficiency of Oil Engines 344
Mechanical Reduction Gears in Warships, Experience and Practice in 383
Meeting of the Fleets, by E. H. B. Anderson 221
Merchant Ships, Low Powered, Propellers for, by S. M. Robinson, Commander, U. S. N. 237
Metal, Transference of Heat Through 548
Metallography in the Detection of a Substituted Test Coupon, by D. J. McAdam, Jr., and Gilbert E. Doan 481

Metals and Alloys, Non-Ferrous, and the Naval Engineer..... 337
Metals, Fatigue of, Investigation of..... 180
Meteorological Society, American..... 211
Meter, Alignment, for Turbine Gearing..... 557
Mills, Edmund, Obituary..... 419
Model Tests, Estimates of Propeller Performance from Self-propelled 533
Motors, Combustion, for Warships..... 821
Motors and Generators, Cooling, Water-Air Radiators for, Investigation of, by H. G. Reist and E. H. Freiburghouse..... 224
National Marine Week and National Marine Exposition..... 212, 418
Naval Aircraft, U. S..... 575
Naval Architecture in Aeronautics..... 762
Naval Communication Service, United States..... 147
